Living a Decorated Life
 WALLPAPER, FABRICS & DRAPERIES[®]

**INTERIOR DESIGN
 TIPS FROM VERN YIP**

- One: A design has to be both functional and beautiful
- two: When accessorizing, be bold and go for fewer things, but bigger things
- three: Add vintage or antiques to a room to give it character and a patina
- four: Surround yourself with things you truly love

We were lucky to be able to meet Vern Yip and hear him speak on design and his new line of decorative fabrics. Many of you may remember Vern from HGTV Trading Spaces where he was one of the featured designers or HGTV Design Star. Coming from an architecture background, the Vern Yip fabric line is full of clean lines, crisp color and most of all affordable. Come to Dero's to see the Vern Yip fabric line.

Spring is here and its time to brighten up your life inside your home and out.
